Brief description

My main direction — system development and testing.
My primary programming language — Python.
I enjoy OpenSource software and tools I use for work and fun.

Projects

C++

XxxSoft   http://www.xxx.com/product.html
Xxx fork with security

Python

Xxx4py   https://github.com/ivandeex/xxx4py
Pure python Xxx library implementation

Experience

Oct 2013 - **Software Engineer**, *Freelance LLC.*
present   Development and support of Database

Dec 2009 - **Software Engineer**, *XxxSoft.*
Sep 2013   Query parsing, translating and processing
Client tools
Build system, packaging

Development skills

Programming Languages

C++, C, Bash   Expert
Python, Xxx   Intermediate
LaTeX, Xxx   Basic

Tools

gcc, gdb, git, svn, xxx

Computer skills

IDE   Eclipse, Xcode
OS   Linux (RedHat, Debian), Windows

Education

Sep 2004 - Jul 2009	**Information Technology**, *Moscow Institute of Physics and Technology, Moscow,* *Russia.* Engineer

Publications

Target-oriented distributed approach for X (rus)
Andreev I.V. Proceedings of «Scientific X (NC-2012)». 2012. #3. Pp. 1-9.

Problems of optimization in X (rus)
Andreev I.V. Algorithms, methods and systems of data processing. 2011. N1(28).
